What was most valuable to you about our coaching services?

I didn't actually have the opportunity to sit in on an entire session. This was a benefit to members who attended the conference. Feedback is based on the evaluation forms I had members complete. Barbara was excellent at offering ideas about how the mini sessions should be run. She came up with the schedule for the classes and made several suggestions about how the event should be organized. She had her own give away. She made it extremely easy for me, and my members were very happy.

Any comments about how our coaching program and services were especially beneficial to you or how you would recommend it to others would be especially appreciated!
